## Rakesh Kumar Sahani

Full Stack Engineer with a strong foundation in MERN stack technologies and over 2 years of experience in teaching undergraduate engineering students. Adept at breaking down complex programming concepts for diverse learners and mentoring students in practical web development using React.js, Node.js, Express.js, and MongoDB. Proven ability to blend industry experience with academic instruction to foster real-world understanding.

### EXPERIENCE

#### Full Stack Developer

One or Eight / Lalitpur / September, 2024 - Present

- Independently developed and deployed full-stack applications using React.js, Next.js, Node.js, Express.js, and Python/Django for various client and internal projects.
- Managed all aspects of databases including MongoDB, MySQL, and PostgreSQL, ensuring optimised queries, data integrity, and backups.
- Built and integrated RESTful APIs and microservices to support scalable architecture and seamless data flow between front-end and back-end systems.
- Handled end-to-end deployment and server management on VPS (Linux/Ubuntu), including Nginx setup, SSL integration, domain configuration, and CI/CD.
- Successfully delivered multiple solo projects, overseeing everything from UI/UX implementation to backend logic, database design, testing, and production deployment.

#### Web Developer (Software Developer)
